

# Weather Outreach Program

Sponsored by the MU-AMS, The Millersville University  
Chapter of the American Meteorological Society

The Weather Outreach Program is an activity designed to connect teachers in grades 4-9 with student members of the MU-AMS, all undergraduate meteorology majors, for the purpose of visiting your school and providing presentations supplemental to your coverage of weather related topics. We direct you to the website below for more information and to schedule a visit. We will attempt to accommodate as many requests as possible. We hope that you will take advantage of this exciting opportunity!
