Call For Papers

9th Conference on Space Weather, 22–26 January 2012, New Orleans, Louisiana

The Ninth Conference on Space Weather, sponsored by the American Meteorological Society, and organized by the AMS Committee on Space Weather, will be held 22-26 January 2012, as part of the 92nd AMS Annual Meeting in New Orleans, Louisiana. Preliminary programs, registration, hotel, and general information will be posted on the AMS Web site (http://www.ametsoc.org/meet/annual/) in late-September 2011.

The central theme of the 2012 Annual Meeting will be technology and its profound impact on research, operations, the business of our environmental sciences, and the public. The Ninth Conference on Space Weather will provide a forum to share recent results in space weather research and applications and will highlight the link between the science and advancing technologies. Papers are being solicited on the following topics:

- space weather impacts on critical infrastructure
- space weather impacts on transportation technology
- small satellites for space weather
- new data sources and products
- space weather metrics and best practices
- developments in data assimilation
- new developments with physics-based forecast models
- coupling between the lower and upper atmosphere
- general space weather contributions.

Please submit your abstract electronically via the Web by 1 August 2011 (refer to the AMS Web page at http://www.ametsoc.org/meet/online_submit.html.) An abstract fee of $95 (payable by credit card or purchase order) is charged at the time of submission.

For additional information please contact the program chairperson, Bob McCoy (703-696-8699); email: mccoyr@onr.navy.mil) or Genene Fisher (email: genene.fisher@noaa.gov).
